2020 NEW PRODUCTS

NEW FULLFIELD IV SERIES

Page 18

The Fullfield has targeted more big game, for more hunters, in more places, than anything we offer. The next-gen IV Series amps it up with fresh 4x zoom optics, more reticle choices, sleek new profile, and a trophy-proven rep for being the only scope a rifle shooter may ever need.

NEW SIGNATURE HD SERIES

Page 20

With both front and rear focal plane reticle systems, short knobs for long-shot holdovers or tall turret knobs for dialing in range, and choice of 5 illuminated and non-illuminated reticles -- including one specifically for 6.5 Creedmoor -- the affordable new Signature HD lets you make a tricked-out precision scope your own.

NEW RT SERIES PRODUCTS

Page 38

Trust the tactical RT to sharpen your edge at any distance. Choose the acclaimed short-range RT 1-6x, new mid-range 3-15x, or long-range 5-25x. Scope out new 1x and 3x red dots. With proprietary features straight from the high-end shelf, every RT is built to take your skills to the next level.

NEW FASTFIRE PRODUCTS

Page 46

Introducing one sight for any weapon platform, any tactical competition, any form of defense, any style of hunting: FastFire. Evolved, refined and advanced for 10 years, with new red dot options, longer battery life, and greater versatility, there's a battle-ready FastFire for every kind of firearm and any kind of shooting.

 **Burris**
FIND WHAT MATTERS

THE LEADER IN LASERSIGHT TECHNOLOGY

Burriss Eliminator — the original laser rangefinding scope and still the best in its class. Compared to similar scopes, it's simple and easy to use. There are no apps to download, or additional gear to fumble with. You'll never miss a shot. Just find your target, range and shoot. The new Eliminator IV offers more performance with extended range and enhanced ballistic software.

THE NEXT GENERATION OF THE BURRIS ELIMINATOR

The **new Eliminator IV** significantly extends the range and accuracy of your favorite rifle. With ranging capability out to 2,000 yards, it greatly increases the distance at which you can make an ethical shot. A new onboard ballistics calculator offers more data and faster aiming solutions. Bluetooth laser activation has been added to make it easy to range your target. With a trophy in sight, there's no need to fumble with smart phones and handheld range finders. Just aim, range and shoot. It's that simple.

Bluetooth Remote

WINDAGE COMPENSATION In addition to distance, the scope's digital display will show a 10 mph Wind Value for your specific cartridge at the indicated range to your target.

Example 300 yards | 10-mph crosswind shooter holds .9 dots into the wind

Example 500 yards | 10-mph crosswind shooter holds 1.7 dots into the wind

FIND WHAT MATTERS

FOUR TOOLS IN ONE ADVANCED OPTIC!

Precision Optic

Digital Inclinometer

Smart Dope Card

Laser Range Finder

The Burris Eliminator family of riflescopes are unlike any other scope. Combining four tools into one advanced optic. Eliminating problems, so you can focus on the shot.

- **Precision Optic.** All lenses are fully multi-coated for sharp, crisp, edge-to-edge clarity
- **Digital Inclinometer.** An internal inclinometer delivers a precise aiming point for angled shots up to 45°
- **Smart Dope Card.** Simply program your cartridge and load into the Eliminator. The precise holdover is automatically determined
- **Laser Range Finder.** The built-in laser rangefinder will instantly determine the distance to your target out to 2,000 yards

BURRIS BALLISTIC SERVICES 2.0

BALLISTICS.BURRISOPTICS.COM

The newly updated Burris Ballistic Services is a set of sophisticated online ballistic tools that will allow you to master any Burris ballistic compensating reticle, build a dope card, program your Eliminator riflescope, or order custom elevation knobs. Burris Ballistic Services will turn you into a reticle expert and a pro on the shooting range.

BULLET LIBRARY

Ballistics really begin with your bullet. The better the bullet info, the better your results. The Burris Ballistic Services tools are centered around the best bullet and cartridge libraries in the business: almost 7,000 different cartridges and bullets are included from nearly every manufacturer.

DOPE CARD

The Dope Card tool was designed with the serious shooter in mind, but it's also a great way for anyone to learn more about long-range shooting. The Burris Dope Card tool provides a level of detail that goes beyond the vast majority of ballistic tools available now.

ELIMINATOR LASER RIFLESCOPE

The Eliminator LaserScope requires basic programming to work correctly. Using our industry-leading bullet library and ballistic engine, you can now quickly get the ballistic information needed to program your Eliminator scope.

CUSTOM SERVICES AND TECHNICAL HELP

The Burris Custom Shop can help you upgrade the knobs and reticles on many of our riflescopes. Prices will vary depending upon the model and upgrade desired. Here are some approximate costs:

- Knob upgrades start at \$40
- Custom MAD knobs start at \$50
- Reticle changes start at \$60

For specific costs and ordering, call the Technical Support line at **888-440-0244**.

CUSTOM KNOBS

Burris now offers custom knobs for most of our riflescopes. This function allows you to modify the elevation knob to match your exact cartridge and environmental shooting conditions.

The following list of Burris riflescopes can accept custom knobs and options can be ordered using the Custom Knob tool:

M.A.D. SYSTEM

The Modular Adjustment Dial (M.A.D.) System lets you choose from exposed competition-style knobs or capped knobs for windage and elevation adjustments.

You can also add custom knobs with laser-etched markings that perfectly match the trajectory of any ammunition.

The following configurations are possible in the M.A.D. System:

- Capped knobs with Mil or MOA markings
- Exposed knobs with Mil or MOA markings
- Capped knobs with custom trajectory markings
- Exposed knobs with custom trajectory markings

Shooters will be able to order custom knobs through Burris Customer Service at <https://ballistics.burrisoptics.com/>

The M.A.D System is available for select XTR II and Veracity models. In mid-year 2020, it will also be available for Fullfield IV, Signature HD and RT riflescopes.

TRUST US WITH YOUR HUNT

Finding corners of the world still devoid of a cell signal. The relationships solidified while hanging a trophy in camp. The laughter around the campfire as the last flame hangs on. Those familiar with Burris know well what matters. It's about self-reliance. Respect for the game and those you hunt beside. Pushing yourself season after season to be your absolute best. For more than 40 years we've been right there with you, pushing ourselves for the same reasons: we know exactly how much the season means to us, and that's why you can forever trust your hunt to Burris.

ELIMINATOR[®]

LASERSCOPES

WATERPROOF

SHOCKPROOF

FOGPROOF

NITROGEN-FILLED

Two words: no guesswork. It's plug and play in a rangefinding scope that goes even bigger: Just feed the Eliminator IV your cartridge's ballistic info and the scope calculates perfect holdover at your exact distance, estimates wind drift, then gives you a bright red dot of accuracy in seconds—all at the push of a button.

NEW ELIMINATOR IV LASERSCOPE 4-16x50mm

ITEM NUMBER:
200133

RETICLE:
X96 RETICLE

ADJUSTABLE PARALLAX:
50 YDS. TO INFINITY

- Powerful laser rangefinder extends your range to 2,000 yards
- Improved ballistics calculator accommodates centerfire, rimfire, muzzleloader and slug gun loads
- Wireless Bluetooth remote for laser activation
- Proven X96 reticle displays a 10-mph wind value to indicate wind hold-off for your specific cartridge at the indicated range
- Mounts to any Weaver-style or Picatinny base. No rings required

ELIMINATOR III LASERSCOPE 4-16x50mm

ITEM NUMBER:
200116

RETICLE:
X96 RETICLE

ADJUSTABLE PARALLAX:
50 YDS. TO INFINITY

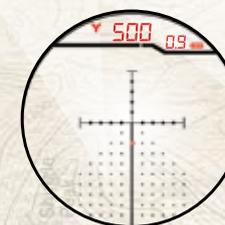

- High magnification extends your long-range shooting capability
- 50 mm objective allows for maximum light transmission
- Strong, low mounting system fits any Weaver-style or Picatinny base; no rings required
- X96 Reticle displays a 10-mph wind value to indicate wind hold-off for your specific cartridge at the indicated range
- Now Includes Ballistic software that accommodates centerfire, rimfire, muzzleloader and slug gun loads

SERIES FEATURES

- Customized trajectory compensation calculates the perfect holdover at your exact distance; program your cartridge's ballistics information, push a button, and a bright red illuminated dot signifies your new aiming point in a split second
- Built-in laser rangefinder eliminates the need for smart phone apps and hand-held lasers
- Trajectory compensation is accurate at any magnification
- Integrated inclinometer compensates for shots at any uphill or downhill angle

Item	Description
410355	SpeedBead Mount Riser – 1/8 in.
410356	SpeedBead Mount Riser – 1/4 in.

SpeedBead mount aligns the red dot lower than any other optic on the market for accurate and instinctive shooting.

Windage and elevation adjustments let you fine-tune your aiming point to the center of your shot pattern.

SpeedBead mount installs between the buttstock and receiver; works with any shim kit.

Burris

ORACLE™

BOW SIGHT

WATERPROOF

SHOCKPROOF

FOGPROOF

NITROGEN-FILLED

A game changer for bow hunters. It instantly provides exact distance to target and exact aiming point. Built off of a decade of rangefinding and ballistic compensation experience with the Eliminator riflescope. Built-in rangefinder gives exact distance to the target at full draw. Instantly calculates and displays the exact aiming point for any distance and shot angle.

ORACLE
by *Burris*

ORACLE RANGEFINDING BOW SIGHT

ITEM NUMBERS:
300400

- All Aluminum Construction
- Locking Micro Adjustment Knobs
- Increase shooting distances out to 80 - 110 yards
- Accommodates up to 184 inches of drop at 100 yards.
- Stores two different trajectory curves for different arrows or draw weights

- Right or Left-hand compatible
- Rear Peep Improves Shot Accuracy and Consistency
- 2nd and 3rd Axis Adjustments
- Water Resistant

ORACLE FEATURES

- No glass to glare, scratch or fog for any conditions. Don't let your trophy of a lifetime walk away because you couldn't see clearly through your sight
- Built in fixed 20-yard pin to give you supreme confidence that you will always have a pin to reference, no matter what
- Sighting in the Oracle is fast and precise with micro adjustment knobs that lock down rock solid
- Compatible with arrow speeds from 200 - 420 fps
- Right and Left-hand compatible

HOW IT WORKS

- 1 Just sight in at 20 yards and two farther distances and the Oracle learns your entire trajectory curve.
- 2 A rangefinder measures the exact distance to your target while at full draw.
- 3 The Oracle instantly calculates the perfect trajectory compensation for the distance and shot angle.
- 4 The sight displays exact aiming point for your shot.

EASY PUSH-BUTTON ACTIVATION

**Activate sight
at full draw!**

Burrís BINOCULARS™

SIGNATURE HD & DROPTINE

WATERPROOF

SHOCKPROOF

FOGPROOF

NITROGEN-FILLED

Hunters have trusted Burrís optics for over 40 years and the new Droptine and Signature binoculars continue the tradition of reliability, affordability and performance. Versatile enough for any style of hunting, they are big on performance but won't slow you down.

SIGNATURE HD BINOCULARS 8x42mm

ITEM NUMBER:
300292

- 8x magnification and HD glass for optimal light transmission and true color fidelity

DROPTINE BINOCULARS 8x42mm

ITEM NUMBERS:
300290

- 8x magnification provides detail and a wide field-of-view
- Full size performance in compact, light-weight package

SIGNATURE HD BINOCULARS 10x42mm

ITEM NUMBER:
300293

- 10x magnification brings the minute details into focus without additional weight and bulk.

DROPTINE BINOCULARS 10x42mm

ITEM NUMBERS:
300291

- 10x magnification is ideal for scouting eastern whitetail or western mule deer

SIGNATURE HD BINOCULARS 12x50mm

ITEM NUMBER:
300294

- 12x magnification is the best choice for wide open country and terrain and larger 50mm objectives offer better detail in low light

SIGNATURE HD SERIES FEATURES

- High-performance HD lenses and BaK-4 prisms produce sharper images and edge-to-edge clarity
- Open bridge design reduces weight and is comfortable to hold
- Nitrogen filled for waterproof and fogproof performance in harsh weather conditions
- Robust aluminum eyecups for extreme ruggedness

DROPTINE SERIES FEATURES

- BaK-4 prisms and fully multi-coated lenses for maximum light transmission and reduced glare.
- Nitrogen filled for waterproof and fogproof performance in harsh weather conditions
- All Burrís binoculars include a durable carrying case and neoprene neck strap for all-day comfort
- Robust aluminum eyecups for extreme ruggedness

Burris

SPOTTER

SIGNATURE HD

WATERPROOF

SHOCKPROOF

FOGPROOF

NITROGEN-FILLED

Take glassing to a higher level with Burris' Signature HD Spotting Scope. With a 20-60x magnification range, you can save time and boot leather by finding and evaluating trophy animals from a mountain away. The HD lenses and apochromatic lens system eliminate color fringing and deliver superb edge-to-edge resolution.

SPOTTER SIGNATURE HD 20-60x85mm

ITEM NUMBER:
300102

HARD CASE
ITEM NUMBER:
NEW 626205

- Built-in sun shade reduces glare and protects the objective lens from rain and snow
- Both coarse and fine focusing adjustment are possible with the forward mounted focus knob
- Eyecup can be adjusted to accommodate eyeglasses
- Lightweight, durable design with a die-cast magnesium body that is armored for greater protection in the field
- Angled eyepiece and rotating tripod mount makes it easy to use whether you're standing or prone

Integrated mounts will accept a FastFire red dot sight on either side

30x WIDE ANGLE EYEPIECE

ITEM NUMBER :
626201
RETICLE:
SCR MIL

ITEM NUMBER :
626202
RETICLE:
SCR MOA

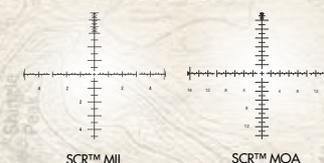

- An optional fixed power 30x eyepiece provides even more range, detail and a wide field-of-view
- Available with your reticle choice of a SCR Mil or SCR MOA
- Easy to install

SERIES FEATURES

- Premium HD glass for optimum resolution and maximum light transmission under any lighting condition
- The index-matched lenses eliminate color aberrations and produce true color fidelity across the visible light spectrum
- Nitrogen gas purging ensures waterproof, fog proof performance under extreme temperatures

WHEN THERE'S FAR TOO MUCH ON THE LINE

Whether it's in the face of a threat or in heated competition, no tolerance exists for failure. There's far too much on the line, and that requires unfailing certainty and faith that your optics will help you perform and prevail when it's go time. Knowing you—and we—have done everything in our power to help that shot find its mark is what matters above all, and that starts with the name you'll see right there on your scope.

That name is Burris.

Burris

XTR III™

RIFLESCOPE

WATERPROOF

SHOCKPROOF

FOGPROOF

NITROGEN-FILLED

A Colorado original. Engineered, designed and assembled out West where distance is measure in hours instead of yards. This next generation long-range competition puts you on target at extreme ranges with Best-In-Class features such as an industry best field of view, 5x plus zoom range, choice of three front focal plane reticles, race dial options and more.

FIND WHAT MATTERS

Burris
T.M.P.R.TM
 SYSTEM

WATERPROOF

SHOCKPROOF

FOGPROOF

NITROGEN-FILLED

The T.M.P.R. SYSTEM is a modular system of purpose-specific optics that can be used individually or in combination to create the ultimate sight for any situation. Each T.M.P.R. System component has its own battery. When connected to a T.M.P.R. prism sight, they can be powered by the prism sight's high-capacity CR123 battery.

T.M.P.R. COMPONENTS

T.M.P.R. FASTFIRE M3

ITEM NUMBERS:
300238

DOT SIZE:
3 MOA

- Compatible with the T.M.P.R. Prism Sights allowing for it to use the larger sight's battery instead of relying on its own battery power
- Automatic brightness sensor adjusts brightness to match the environmental conditions; also has 3 manual brightness settings
- Battery access is conveniently located on the top of the sight; automatic time-out feature after 8 hours helps battery last up to 5 years

T.M.P.R. LASER SIGHT

ITEM NUMBERS:
300221

- Red Laser
- Compatible with the T.M.P.R. Prism Sights allowing for it to use the larger sight's battery instead of relying on its own battery power
- Perfect for low-light fast-action tactical shooting and home defense

FASTFIRE™

RED DOT SIGHTS

WATERPROOF

SHOCKPROOF

Instant dot-on-target accuracy for any firearm from handgun to shotgun, any sport from 3-Gun to wing shooting, any use from patrol to plinking. Loads of reticle options, massive battery life and 4 different models make FastFire the most versatile red dot reflex you can mount.

NEW FASTFIRE 4

ITEM NUMBERS:
300259
RETICLE:
MULTI-RETICLE

- Toggle between four different reticles
- Impact resistant housing
- Brighter aiming point with longer battery life
- Bigger sight window for faster target acquisition
- Removable weather shield stays attached when slide mounted.

FASTFIRE 3

ITEM NUMBERS:
300234
DOT SIZE:
3 MOA

- Automatic brightness sensor adjusts brightness to match the environmental conditions; also has 3 manual brightness settings
- Battery access is conveniently located on the top of the sight; automatic time-out feature after 8 hours helps battery last up to 5 years

ITEM NUMBERS:
300236

DOT SIZE:
8 MOA

- Available with Picatinny/Weaver mount for mounting on rifles, handguns and tactical shotguns

FASTFIRE 2

ITEM NUMBERS:
300232
DOT SIZE:
4 MOA

- Automatic brightness sensor adjusts brightness to match the environmental conditions
- Available with Picatinny/Weaver mount for mounting on rifles, handguns and tactical shotguns
- Black hood, when installed, puts unit into sleep mode

AR-F3™

ITEM NUMBER:
300215

DOT SIZE:
3 MOA

ITEM NUMBER:
410348
MOUNT ONLY

- Product includes AR-F3 tactical mount and 3-MOA FastFire 3 red dot sight
- Positions the FastFire at the optimum height on an AR as a standalone sight and as a co-witness for iron sights
- Sight is protected by metal wings on each side
- Has convenient storage space for spare battery, open-end wrench, and Torx® wrench
- Fits any Weaver or Picatinny-style base

SERIES FEATURES

- Bright red dot allows for fast target acquisition and easy aiming
- 1x magnification allows for both-eyes-open shooting, for enhanced awareness and target acquisition
- Parallax-free, for better accuracy
- Mounts to almost anything—including handguns, rifles and shotguns—and the shockproof design stands up to years of punishing recoil
- Windage and elevation adjustments make fine-tuning easy

Burris

RINGS & MOUNTS

Hunters and tactical shooters count on Burris mounting solutions, with a wide variety of options that securely mount a riflescope onto any Weaver or Picatinny-style rail. These rings and bases provide long-lasting holding power and durability for hunters, duty officers and competitive shooters.

AR-SIGNATURE QD™ P.E.P.R.™ MOUNTS

- The new streamlined design with QD mount insures ¼ MOA re-mount capability and allows for use of back up iron sights while maintaining proper eye-relief. Available in 30-, 34- and 35-mm options with Burris' Signature polymer ring inserts, it provides adjustment from 5 to 40 MOA without using windage/elevation knobs.

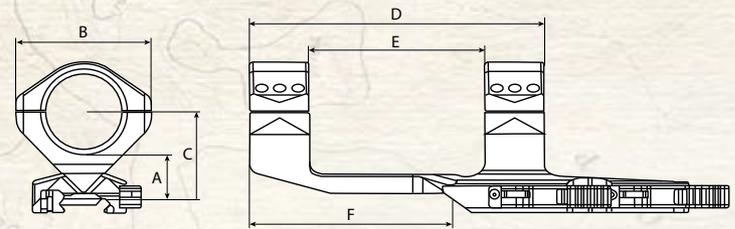

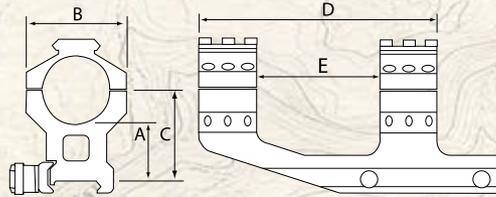

AR-P.E.P.R. Quick-Detach Model

AR-P.E.P.R.™ MOUNTS

- Full ring and base mounting solution in one
- Allows up to 2 inches of forward scope positioning
- Provides optimum eye relief and full field of view
- Includes both smooth and Picatinny ring tops
- Quick-detach models allow for fast mounting

Burrís RETICLES

Reticles take the guesswork out of target size and distance, wind hold-off, and holdover. There's a quality Burris reticle with features for every shooting challenge.

THE RIGHT FOCAL PLANE FOR THE SHOT

FRONT FOCAL PLANE

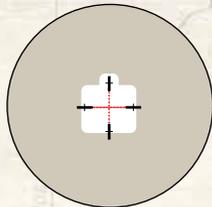

Front focal plane (FFP) reticle design, also called first focal plane, places the reticle in front of the zoom mechanism, allowing the reticle size to increase or decrease as magnification is increased or decreased.

Trajectory compensation and reticle measurements are always correct and proportional for the selected power setting.

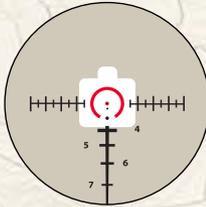

REAR FOCAL PLANE

Rear focal plane (RFP) reticle design, also called second focal plane, places the reticle behind the zoom mechanism so the reticle size stays constant at every magnification.

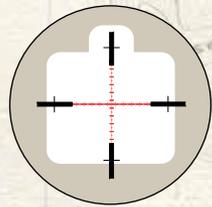

Trajectory compensation and reticle measurements will only be correct at one magnification setting (normally high power).

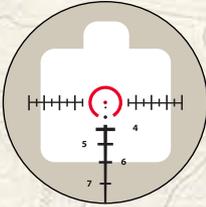

FFP LOW-POWER VIEW

RFP LOW-POWER VIEW

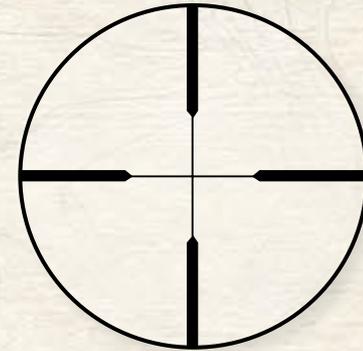

FFP HIGH-POWER VIEW

RFP HIGH-POWER VIEW

RFP

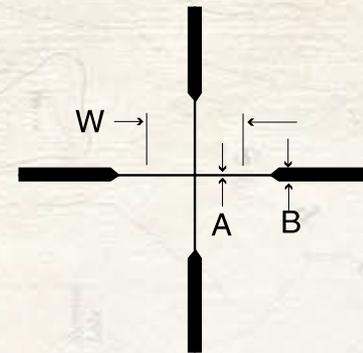

REAR FOCAL PLANE

PLEX

- Simple reticle
- Thin crosshair with bolded edges is highly visible
- Lets you zero in on animals of nearly any size

MATCH YOUR EXACT BALLISTICS TO YOUR BURRIS RETICLE

Burris makes it easy to match your environment, cartridge, gun and scope to provide the exact reticle data you need. Whether you dial in a solution, or prefer an exact holdover, this tool will calculate it for you. Learn precisely where your shot will fall at any distance.

The Burris Ballistic Services offers a newly updated set of sophisticated online ballistic tools that will allow you to:

- Build & true a dope card
- Program your Eliminator riflescope
- Order custom elevation and windage knobs
- Analyze your Burris reticle

With our easy-to-use software, expansive cartridge and bullet libraries, and highly customizable results, the Burris Ballistic Services will turn you into a reticle expert and a pro on the shooting range.

These tool were developed with the serious shooter in mind, but it's also a great way for any novice to learn more about long range shooting.

And with the ballistic calculator adding in environmental factors, it's not just quicker: it's far more accurate than ever before.
